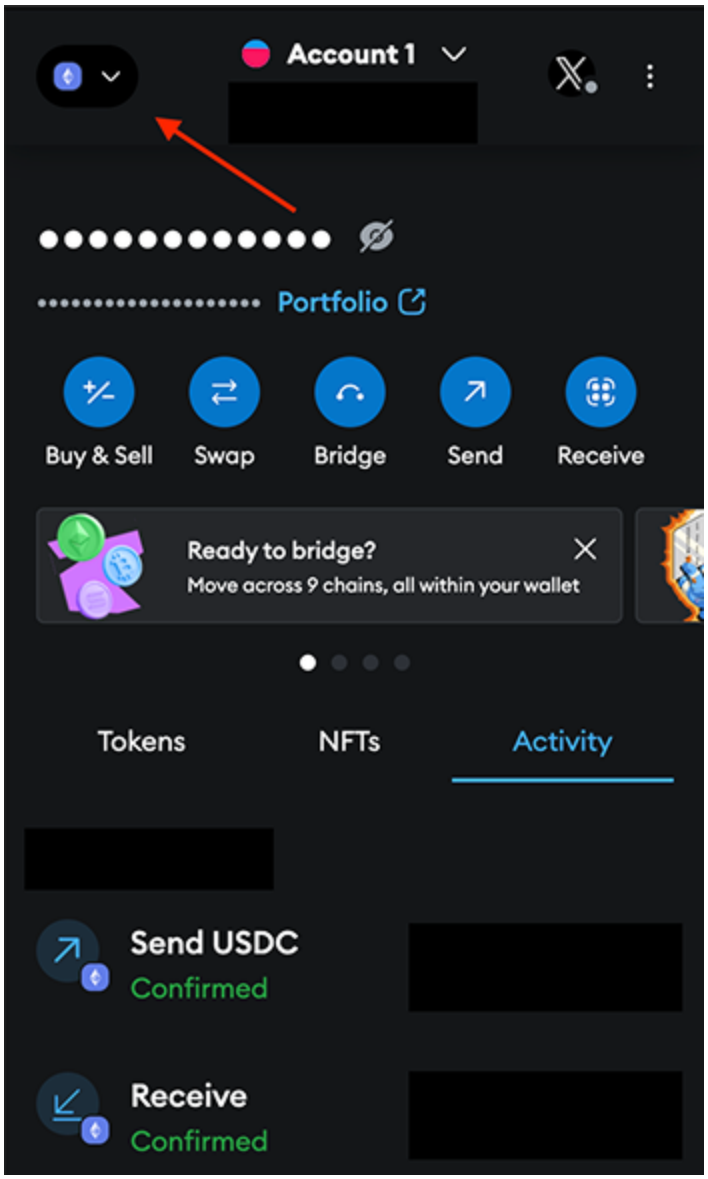
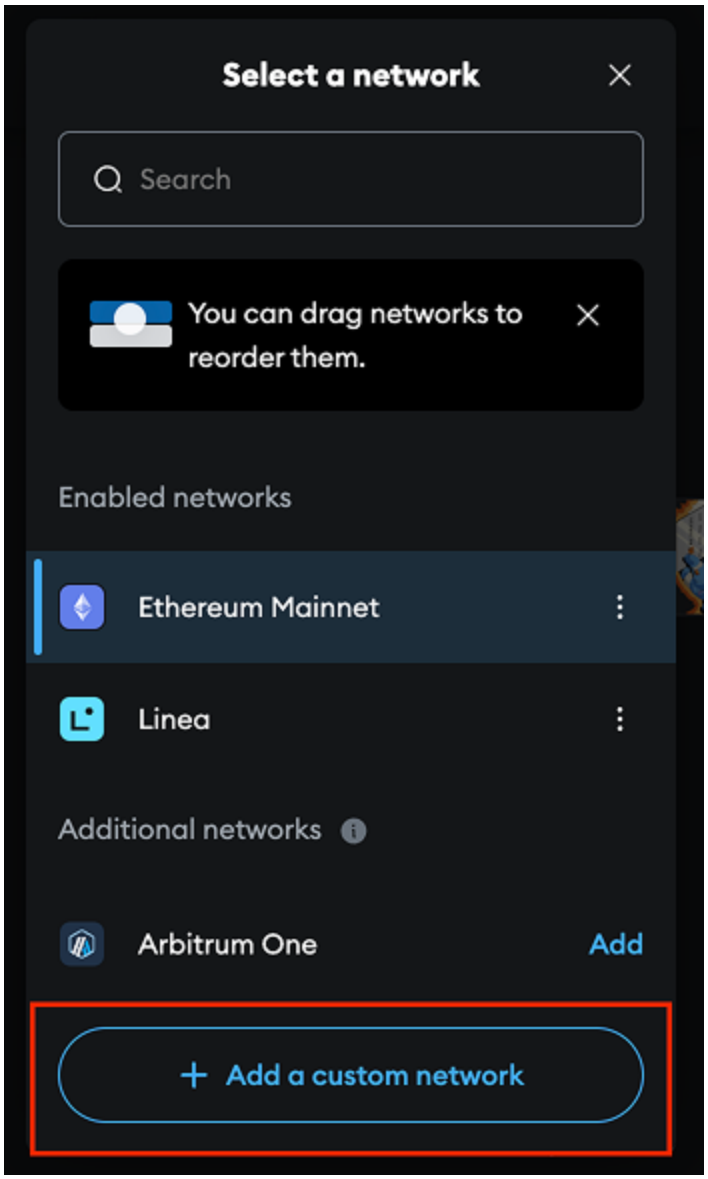
Adding Nexus to Metamask

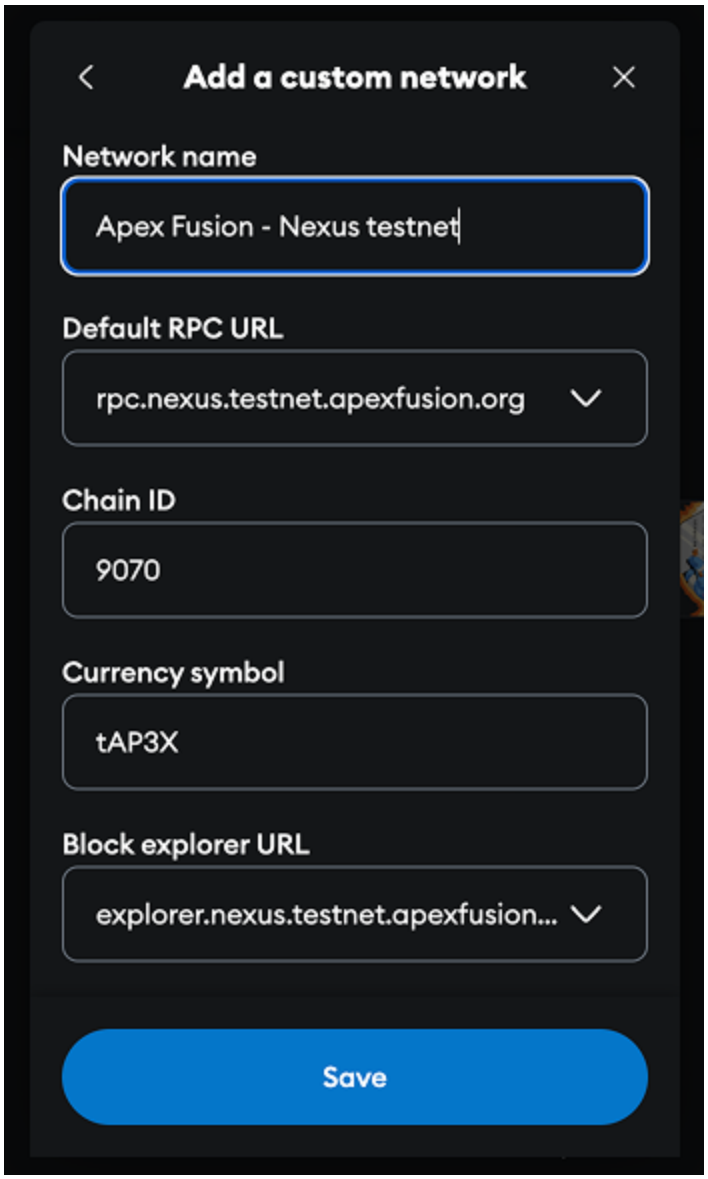
1. Log in to your MetaMask account and press the network button in the top left corner.



2. In the pop-up window, click the ‘Add Network’ button.



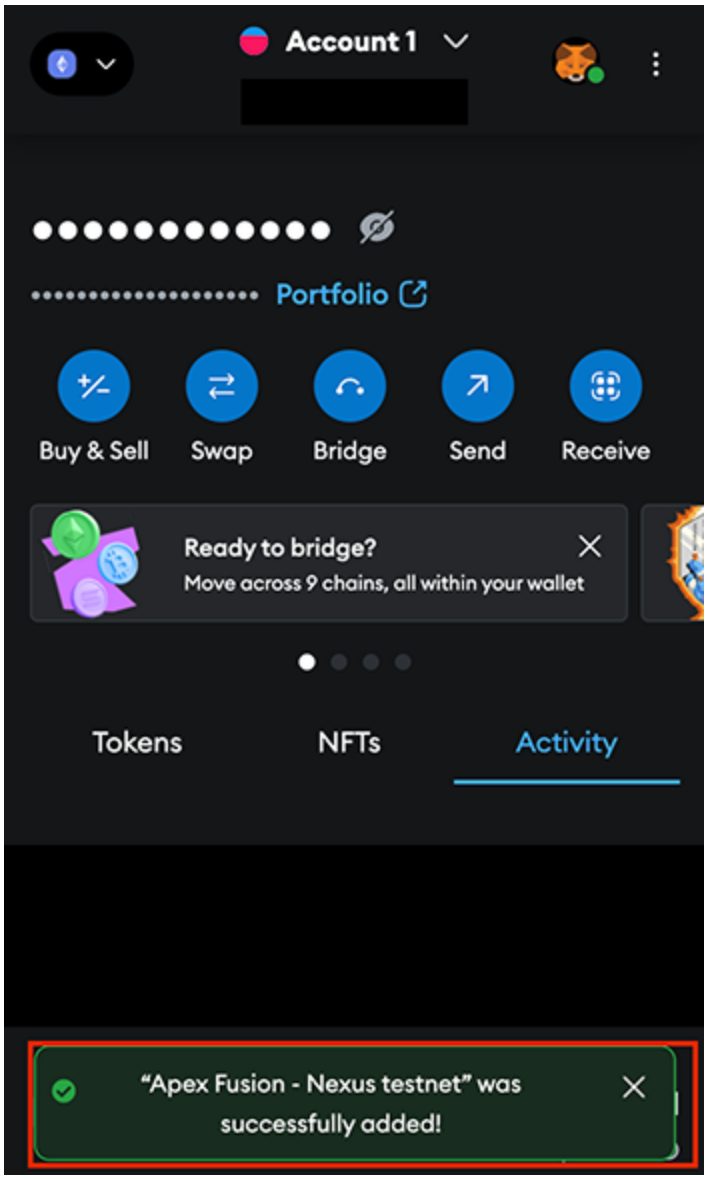
3. Enter the following data from the image or copy it from point 4. After entering the information, press the ‘Save’ button.



4. Enter following data:

Network name	Apex Fusion - Nexus testnet
RPC URL	https://rpc.nexus.testnet.apexfusion.org/
Chain ID	9070
Currency symbol	tAP3X
Block explorer URL	https://explorer.nexus.testnet.apexfusion.org

5. Success window will pop-up



6. To change a network, press the network button in the top left corner and find Nexus network
